

ADHESIVE PEEL AND STICK HEAT SINKS

- With pre-applied adhesive, just peel off the release liner and press onto the component
- Reduces assembly costs; no more messy adhesives or greases required
- Excellent mechanical bond
- Thermally optimized pin fin
- Omnidirectional
- Adhesive shear strength at 100°C is 36psi (a one inch square heat sink would require a 36lb. force to remove heat sink)
- Applicable for BGA, PGA, PLCC, and QFP packages

NOTES:

\*Thermal resistance of adhesive tape is included.

\*\*Thermal resistance values based on power density of 3 watts/in<sup>2</sup>

\*\*\*Part numbers listed for standard black anodized heat sinks with CTS adhesive tapes.

All dimensions are in inches.
