EIGHT-CONDUCTOR LOW PROFILE JACKS

●GENERAL

The TM5RL Series are small 8-contact modular connectors designed to be 11.7 mm in height and 23% smaller in volume than our former models to meet the demand for smaller and thinner electronic equipment.

●FEATURES

- (1) 11.7 mm in height above PCB surface (shielded jacks: 11.9 mm)
- (2) 23% smaller in volume than our former models
- (3) Space-saving: 14 mm (14.6 mm) in width and 17 mm (7.6 mm) in depth. (): shielded jacks
- (4) EMI-protected ferrite and shielded jacks available.
- (5) Ferrite and shielded jacks use the same connector body as standard jacks, requiring no change in the PCB for redesigning.
(When you plan to redesign a standard PCB to a shielded PCB, select the shielding pattern in advance).
- (6) A quadruple jack is equal to or smaller in size than four TM5RL-88 jacks combined.
- (7) Plugs and jack connectors comply with the ISO 8877 Standard (ISDN interface connector).

●APPLICATIONS

LAN boards, HUB, ISDN terminals, and personal computers.

●RIGHT-ANGLE DIP TYPE
